

Clay Dowling, President Ghost Transportation Services

Finalist for the Viterra Award for Business Leader of the Year

Ghost Transportation Services was founded in 1987 by Clay Dowling. Ghost Transportation Services offers diversity and flexibility to its customers whether it is warehousing, the shipment of raw materials, transportation or the distribution of finished products.

Dowling recognizes that contact and communication are keys to success and to facilitate these within Ghost Transportation Services he developed a call system that ensures all customers are contacted on every price quote, and established proprietary software that allows all staff to access customer files, ensuring customers have constant availability of information and are not reliant on specific individuals.

Dowling is a former Saskatchewan Chamber President, Saskatoon Chamber Committee member, North Saskatoon Business Association President, ACRE Committee member and business mentor. In 2008 Dowling was inducted into the Saskatchewan Transportation Hall of Fame.

Dowling also introduced the ghost transportation benefit to the Saskatchewan Chamber of Commerce to provide savings to the membership, revenue to the Chamber and to additional revenues to Ghost Transportation.
