

Lorraine Forster, President Prairie's Edge Development Corporation.

Finalist for the Cameco Award for Young Entrepreneur of the Year

Since 2001, Lorraine Forster has purchased, renovated and resold four residential real estate and six commercial properties. She established Prairie's Edge Development Corporation in 2007 to create unique lakefront subdivisions that provide affordable properties for the construction of recreational and retirement homes.

The company's first project, Water's Edge at St. Brieux Lake, consisted of 5 lakefront and 10 lakeside lots which sold out in less than one month.

Prairie's Edge is currently working on Water's Edge at Lucien Lake, located ~ 1 hr East of Saskatoon. Infrastructure installation is nearing completion and will soon be complemented by a new public park, lake view deck and extensive children's playground area. Project updates can be found on the company's website at www.lucienlake.ca.

Prairie's Edge is committed to providing exceptional real estate investment opportunities while being respectful of the local natural environment.

Forster has also been very active in her community, dedicating time to various local causes and chairing initiatives with the Humboldt Kinette Club.
