

## **Spalding Orthopedic Design Inc.**

Finalist for the MD Ambulance Care Ltd.,  
Regina Qu'Appelle Health Region and  
Saskatoon Health Region  
Award for Health Innovation

Spalding Orthopedic Design makes custom made foot orthotics, custom made knee braces and other custom made/ prefab orthopedic devices. These devices are specifically engineered to help individuals regain partial or full function of an injured, weakened, absent or deformed body segment. Spalding Orthopedic is best known for its truly customized orthopedic devices that are individually engineered and manufactured to meet each patient's unique size, shape and individual needs.

Spalding Orthopedic has been in operation for nine years and the company manufactures 90% of all of its orthopedic devices in its nationally accredited laboratory in Rouleau. Approximately 98% of Spalding Orthopedic's sales occur in Saskatchewan with the remainder taking place in Manitoba.

Spalding Orthopedic prides itself on offering the latest technology in its orthopedic devices and it is the only facility accredited by the Canadian Board for Certification of Prosthetics and Orthotists that offers clinics in Yorkton, Estevan, Weyburn, Regina and in patient service to Moose Jaw.
